

Baie geluk, ons is trots op julle:

Die **Wenner vir die Beste Alunite** in die land
Robie McFarane se
Alunite Vredenburg

Dit is vir ons 'n voorreg om te sien hoe Robie in so 'n kort tydjie so 'n fenomenale groei getoon het dat hy weggestap het met die prys van die Beste Alunite landwyd. Die Rustenburger het gou sy voete gevind en verlief geraak op die Weskus vandat hy sy Alunite winkel in Oktober 2014 oopgemaak het.

If you consider that this prize is usually won by a branch that has been in business for a long time, it only depicts the drive and dedication of the man. We are lucky to have a man of this calibre in our group and he can only be an inspiration to the other Alunite owners.

Together with Robie's wife, Mandi and Dirk who is a lot more than just a rep, they form a formidable team. Congratulations in walking off with the 1st prize. It is well deserved.

Robie McFarlane of Alunite Vredenburg (on the right) is the Winner of the Best Alunite for 2015. Ilias Ganey of Alunite Montague Gardens received the Merit Award in the same category. Their photo was taken at the AGM held in Blaauwberg in February 2016.

The Merit Award for the **Best Alunite** Ilias Ganey of **Alunite Montague Gardens**

Alunite Montague Gardens has won the award for the Best Alunite 4 years running and missed it by a very narrow margin this time.

Ilias and his team which consists of his father Jai, his son and brother. This family unit work closely together and have complete control over this very successful business. Their general business acumen and experience of the aluminium and glass trade is of great value to the group. To be able to draw on their experience and ingenuity is of great value to our other franchisees. Their willingness to share their knowledge is well worth mentioning.

The Most Improved **Alunite** Award went to Niel Myburgh **Alunite Centurion**

Since Niel opened his Alunite in September 2013 (only 2 y and 5 mths ago) he has shown exceptional growth, not only in turnover, but also technical and practical know-how of the aluminium and glass trade and products. Working in this environment (right) improves creativity and productivity. Well done Niel!
