New Alunite in Wetton:

Faiza de Klerk opened her Alunite in the very busy Wetton area. As you can see, the building is very visible and can be seen from Wetton Road. Interestingly, the Alunite is housed in the old Post Office building with lots of hooks and crannies which was quite a lay-out design challenge.

All the signwriting was done by a professional sign writer. All painted and no vinyl lettering.

I am sure that their very attractive showroom will eventually also be turned into a consulting/sales area.

Congratulations Faiza, you have a beautiful store and we wish you the best.
